

EC REACH REGULATION

Declaration of compliance with the EC REACH Regulation

Issued under the provisions of REGULATION (EC) No 1907/2006 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL OF 18 December 2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH).

Bramming Plast-Industri A/S (BPI) hereby declares:

- BPI has the position as downstream user, thus the company has no obligation to pre-register/register material purchased from European manufacturers or importers.
- Polyurethane foam products are classed as articles and we are in close contact with our suppliers to ensure that the raw materials used to produce our articles are registered when required by REACH registration to maintain continued supply as well as consistent quality of BPI products.
- To the best of our knowledge at present, the products we provide contain no Substances of Very High Concern (SVHC) as defined in the Candidate list of Substances of Very High Concern for Authorization in concentrations above 0,1%.

BPI confirms that we will continue to monitor the updates of the Candidate List as part of our ongoing compliance activities, including assurance that suppliers continuously follow up on new substances added to the Candidate list.
